Discover Your Future at South Bank Colleges

South Bank Colleges, including **Lambeth College** and **London South Bank Technical College**, is a vibrant learning community. With campuses in **Clapham**, **Brixton**, **Croydon**, **Elephant & Castle** and **Nine Elms**, it offers a wide range of technical, vocational, and academic courses.

Explore Your Pathway at South Bank Colleges

Become qualified and industry-ready professionals, full of motivation and essential skills for today's competitive job market. High standards are maintained in teaching, learning environments, Digital spine spaces, industry connections, and study resources. Students are encouraged to take charge of their learning, think independently, and work well with others. Whether you want to enter the workforce directly or continue your studies at university, South Bank Colleges supports your journey to success.

LSBU Group

Being part of LSBU means an exciting educational group means our students have access to incredible support and opportunities. We regularly work with academics from within the university on enhancing our curriculum. Our students have access to excellent facilities, placement opportunities and advice. We work within LSBU Group to ensure every student is ready for the next step in their lives; whether that be progression within the group, an apprenticeship or degree or full-time employment

Student Support – We offer a wide range of support to help give you every opportunity to do well in your studies at Lambeth and London South Bank Technical College. This includes:

- Academic support
- Financial support
- Career support
- Wellbeing and safety support
- Work experience

London South Bank Technical College – A Clean Energy Technical Excellence College in Nine Elms. Specialising in vocational and technical excellence. Here, students engage with STEAM skills and careers in a state-of-the-art, work-based learning environment, designed to mimic real-world professional settings. The curriculum focuses on hands-on

experience, blending tech-forward labs, industry-led masterclasses, and collaborative projects. This equips students with practical skills that can be used immediately in the workplace. Additionally a 2 year level 3 program or level 4 courses offer pathways to degree programmes and apprenticeships, creating a direct link to higher education and career advancement.

Lambeth College – Lambeth College is dedicated to transformative education, offering a wide range of essential skills and vocational training programmes from Entry 1 to Level 4. The campuses in Clapham and Brixton are closely connected to the local community, providing personalised learning experiences that resonate with and uplift a diverse student body. With strong ties to local employers with a curriculum reflecting the needs of the London job market, Lambeth College helps students unlock their potential and achieve their career goals. It's never too late to take the first step.

London South Bank University

How the right environment can transform a student's future. After struggling in sixth form, Sam joined South Bank Colleges to study the Sport . With access to expert tutors, industry links, and state-of-the-art facilities, he regained confidence and thrived in a practical, supportive setting. This experience gave him the skills and foundation to seamlessly progress to London South Bank University, where he is now studying Sports Science. Sam's story highlights the strength of the integrated pathway between South Bank Colleges and LSBU in turning potential into success.

Sam
BSc (Hons) Sports Science at LSBU.
Former SBC student

Access – Get Degree Ready

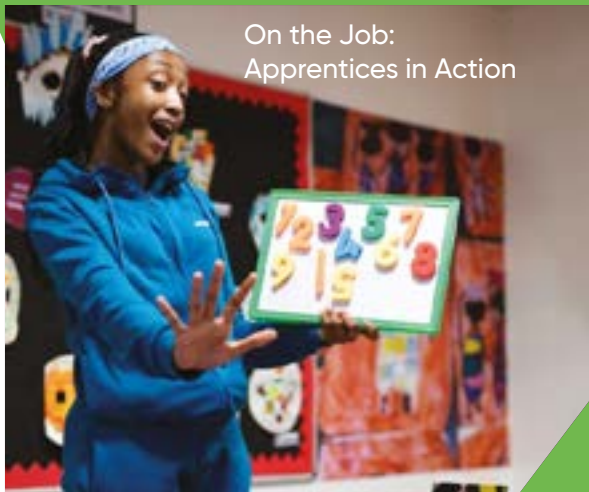

Our tailor made Level 3 one-year Access courses map directly to degree courses at LSBU. If you are looking for a clear path to any university then these are the perfect option. If you don't quite have what you need to start at Level 3, then why not apply for a Level 2 course to start you on the right path.

Check your eligibility with us, as you may qualify for a fully funded qualification.

T LEVELS

The Gold Standard for Future Success

T Levels are the new technical qualification for ambitious students aged 16–18. Seen as the gold standard, they are equivalent to three A Levels and open the door to university, apprenticeships, or skilled employment. Students spend 80% of their time mastering advanced knowledge in class, and 20% in a substantial industry placement of at least 45 days, applying their skills in the real world. Each T Level combines:

- Specialist knowledge and hands-on skills for your chosen industry.
- A high-quality industry placement to gain real experience.
- Essential digital, English and maths skills.
- Professional workplace behaviours that employers value.

T Levels are designed for students who want to aim higher, achieve more, and lead the future.

Students ready for Level 3 study will be encouraged onto a T-Level programme appropriate to their needs. We also encourage students at Level 2 to consider a T-Level Foundation programme where available, in preparation for Level 3

T LEVELS

The Gold Standard for Future Success

- Design and Development for Engineering and Manufacturing
- Design, Surveying and Planning for Construction
- Digital Production, Design and Development
- Education and Early Years
- Health (Supporting the Midwifery Team)
- Management and Administration
- Media, Broadcast and Production
- Science

Fast-track to university

Whether starting fresh, levelling up, or shifting directions, Level 4 courses and HTQs are your pathway to becoming highly-skilled and sought after in the competitive job market. More than just developing your subject-specific knowledge and skills, these one-year, full-time courses fully prepare you for higher-level study by teaching you the skills you will need at university and give you the confidence and experience to fulfil your academic ambitions.

Level 4 courses are a great progression route after completing A levels, a level 3 or T levels.

Level 4 professional courses

We want you to **take on the world**.
This is your future.
Get the job and career you want.

- **Biology**
- **Construction Site Supervisor**
- **Dental Technology**
- **Engineering**
- **Film and Media Production**
- **Forensic Science**
- **Games Development**
- **Software Development**
- **Supporting Healthcare Professions**
- **Quantity Surveying Technician**

Successful completion of a relevant Level 4 course will guarantee you a year two undergraduate place at London South Bank University (LSBU)

Gateway English & Maths Study Programme Pathways

No matter what's behind you, your next step starts here.

Didn't get the GCSE grades you were hoping for? Don't worry, we're here to support you every step of the way.

The Gateway Study Programme is designed to help you build your confidence, develop your skills, and work towards your future goals. As part of the programme, you'll have the opportunity to retake your GCSE English and/or Maths alongside studying a Level 1 qualification, giving you the best chance to achieve the grades and progression you need for the next stage of your journey. Each programme combines a Level 1 vocational subject of your choice with English and Maths support at the right level for you. Complete the year and you'll step up to a full Level 2 course with the qualifications, skills, and confidence to get there.

Pick a subject that excites you. We'll build your English and Maths around it, at the level that's right for you.

Business and Entrepreneurship

Explore how businesses are built, run, and grown. From ideas to enterprise, this pathway suits anyone with an interest in starting something, working in business, or understanding how the world of work operates. Progress to Level 2 Business.

Care, Wellbeing and Community

If you care about people and want to make a difference in your community, in healthcare, or in social care settings this is the pathway for you. You'll develop practical skills that open doors to roles where it really matters. Progress to Level 2 Health & Social Care.

Digital Media and Esports

From content creation to gaming culture, this pathway turns your digital interests into real skills. Learn about media production, the creative industries, and the business behind online platforms. Progress to Level 2 Digital Media / Creative Industries.

English for Speakers of Other Languages (ESOL)

Young People (16–18)

If you're aged 16–18 and speak English as a second language (ESOL), and want to improve your English skills, then this is the right course for you.

On this course you will improve your knowledge and skills in reading, writing, speaking, grammar and vocabulary, and listening. Our ESOL for Young People course is designed to help you to go on to further studies, or to find work.

There are five different levels of study, and you will have an initial assessment to make sure you start learning at the level that's right for you. Our ESOL courses also include functional skills maths, employability skills, digital skills and tutorials.

You will also have the chance to complete additional Units with our brand new Vocational Tasters for E3 and L1 groups:

- **E3 ESOL with Creative and Digital Media**
- **E3 ESOL with Performing Arts**
- **E3 ESOL with Hospitality and Catering**
- **L1 ESOL with Science Pathway**
- **L1 ESOL with Construction Pathway**

ESOL for Adults (19+)

If you're aged 19 or over and speak English as a second language (ESOL), and want to improve your English skills, then this is the right course for you.

On this course you will improve your knowledge and skills in reading, writing, speaking, grammar and vocabulary, and listening. Our ESOL for Adults course is designed to help you to go on to further studies, or to find work.

There are five different levels of study, and you will have an initial assessment to make sure you start learning at the level that's right for you.

Our ESOL courses also include functional skills maths, employability skills, digital skills and tutorials.

We offer classes where you can get further support with language, and gain additional skills and qualifications, to help you get a job, progress in your career, or move on to higher level studies: .

**Maths • ICT (digital class) • Health and Social Care
Hospitality • Business and Retail • Construction**

IELTS Preparation

If you are motivated and eager to improve your English language skills for work, further study, or Higher Education, then our Preparation for IELTS college certificate could be the course for you. This course is designed for those of you who aim to qualify for work or study in the UK, or who would like to improve your language skills for your existing job, and are already working at an intermediate, upper-intermediate, or advanced level of English.

The Preparation for IELTS course will help boost your English language skills while allowing you to familiarise yourself with the IELTS format and requirements, so you can sit the full IELTS exam with confidence in the future. The International English Language Testing System (IELTS) is the world's most popular English language proficiency test for Higher Education.

On this course you will practice and improve your reading and writing skills, and undergo intense study and practice grammar.

More than just improving your English language skills, you will also be introduced to a variety of strategies and techniques to improve your exam performance. You will be regularly assessed, and receive in-depth feedback, in order to progress and achieve your targets.

Essential Skills for Adults

Employers are now demanding candidates to show good literacy and numeracy skills and Lambeth College will help you achieve this. Join us to complete the course designed to help you gain the necessary skills to further your career or progress on to higher level courses.

English

- **Functional Skills (Pre-entry to Level 2):** Improve spelling, grammar, reading, writing, and speaking.
- **GCSE English:** Learn critical reading, writing for impact, and communication skills for work or further study.

Maths

- **Functional Skills (Pre-entry to Level 2):** Build everyday maths skills including money, graphs, and measurements.
- **GCSE Maths:** Study key topics like algebra, geometry, statistics, and problem solving

Sector-Based Work Academy Programme (SWAPs)

Build practical skills, gain confidence, and take the next step towards employment through employer-focused training programmes designed to prepare learners for real workplace opportunities:

Apply through your local jobcentre for these pathways

- Civil Service
- Construction
- Digital skills
- Early years
- Entry to employment
- Work in schools

Build Confidence. Develop Independence. Prepare for Your Future.

Our Entry Level SEND programmes are designed for young people aged 16–24 with an Education, Health and Care Plan (EHCP).

Our curriculum focuses on developing the knowledge, skills and confidence needed for adulthood. Students are supported to become as independent as possible while building confidence for their next steps.

Following successful completion, students may progress to:

- **Higher-level SEND programmes**
- **Vocational courses**
- **Supported Internships**
- **Supported employment**

Our aim is to ensure every learner leaves with greater independence, confidence and the skills needed to achieve their future goals.

Foundation Studies– College Certificate Courses

- **Learning for Independence**
- **Learning for Community**
- **Vocational Tasters**
- **Introduction to IT**

Entry Level Courses

- **Creative Industries**
